## History Lives

In recent years, there has been a phenomenal increase in interest in local history. Unfortunately, the aroused interest has come right at the same time that the death rate has increased among area pioneers. It's seldom a community is blessed with living citizens who helped make the area's history. They're the reason to believe Twin Falls and other Magic Valley communities have not taken full advantage of the unusual circumstances.

Now with Twin Falls almost 60 years old, pioneer settlers here are becoming almost rare. To complicate the matter of preserving as much local history as possible, advancing years have taken their toll of memory.

For that reason, the periodic tours of the Twin Falls Historical society have assumed increasing importance. By visiting spots where history was made, accompanied by a narrative of the particular event, the knowledge is spread over a broader base and there's more of a chance of preserving it.

In effect, history comes alive for a short time on the society's tours. The last tour of the season will follow that general pattern. The society plans to visit the remains of a cabin on Deadline ridge, a cabin once occupied by the notorious Diamondfield Jack Davis. Here is a bit of history that may have been unknown to a good many visitors to the "Bottle Hill" who had gone right-by the remains of the cabin.

The Sunday trip will serve to recall the days when sheepmen and cattlemen weren't on the best of terms, a situation that resulted in skyrocketing Diamondfield Jack Davis into notoriety. He was found guilty of murdering two sheep herders but was later pardoned and lived to a ripe old age, only to be struck down by an automobile.

Even the name of Deadline ridge will be figured in the society's Sunday tour. The high ridge, visible for miles from either side, strikes straight south into Nevada. It became the "deadline" between grazing sheep and cattle.

The Twin Falls County Historical society deserves praise for its efforts to preserve local history. It also is to be commended for the novel Sunday tours arranged during the past few years. Those who have participated in the trips feel they're worth the time and effort. There's to be quite a crowd on hand at 9 a.m. Sunday when the last tour of the season takes shape at the bandshell in the city park. Those planning now for the jaunt are certain it won't be a waste of time.

## VITAL TRADE

History emphasizes that the nations developing the biggest foreign trade were the most powerful nations of their time. When the trade diminished, the nation's power diminished in a direct ratio. It's generally true in world commerce during the past few centuries. The Portuguese, Spanish, Dutch, English all developed world trade at one time or another. As their trade expanded, so did their colonies. And as the trade faded, the colonies dribbled away one by one.

Perhaps that's an oversimplification of a situation that's grown increasingly complicated with industrial and transportation revolutions. Nevertheless, world trade is a vital factor in the prosperity, strength and general economy of nations today. Rapidly expanding world trade has been a big factor in the recovery from war of both Japan and West Germany. Their foreign markets are essential to their prosperity and booming economy.

With the ample examples evident in history and obvious today, it seems natural that such trade agreements as the Common Market will help the economy of the participants. The shining examples of Japan and West Germany indicate that world trade is still important to nations, perhaps more important than ever.

Whether the Common Market and U. S. efforts to develop world trade follow the tradition remains to be seen. Examples of the past need to be taken to understand for the world trade outweigh the liabilities.

## UNWANTED CHILDREN

Unwanted children are one of the mysteries of a civilized world. Mothers everywhere will shake their heads when they read the case of "Little Miss Q" in Indianapolis. For more than three weeks, authorities used up all the usual methods of trying to establish the identity of the 4-year-old girl. They also tried a few unusual ones. They even put a picture appeared in hundreds of newspapers from coast to coast, including the Times-News.

The child's mother claimed the little girl became separated from her at an Indianapolis bus stop. Interestingly, no report was made to authorities, so it could be concluded the mother was not interested in finding the girl.

Deliberate abandonment of a child is difficult to understand. It may be impossible to understand for all the childless couples who yearn to adopt a youngster.

# WHIRLIGIG

WASHINGTON, Sept. 12.—The amount of public and private funds paid as "benefits" to millions of Americans has reached the amazing sum of 40 billion dollars a year, or 800 million dollars a month, before today's Congress scheduled for next year a session. To appreciate the importance of this income as a stabilizing factor because of its contribution to the pool of purchasing power, it is equal to about one-half of the nation's total food bill, which was \$1 billion dollars last year. The nation's budget in 1950 was only 30.6 billion dollars.

Now does the 40-billion-dollar figure include personal payments derived from unemployment insurance, public relief assistance, or income from savings and investments?

As an indication of the steady increase in these benefits, the total was only 31.2 billion dollars in 1950, and only 35.4 billion dollars in 1959. As another measurement of their importance, they represented 11 per cent of the total disposable personal income of 352 billion dollars in 1961.

Half workers covered—these statistics, which were compiled from government sources by the Life Insurance Institute, show that more than half of the people employed in commerce and industry are now covered by private pension and retirement plans. In their contract negotiations of recent years, labor unions have concentrated on obtaining fringe benefits as much as they have on immediate wage increases.

In commenting on the hygienic effect of these benefits, as an economic cushion against the 1929-1933 type of depression, the institute says:

"This provides an insight into the strength of personal income and its resistance to recessionary influences in recent years. Beyond that, these programs have become one of the nation's major pools of funds for productive and social capital, and have a growth-promoting factor of the first order."

NEW RISKS POSSIBLE—The outpouring of cash helps to maintain purchasing power when other sources dry up. It helps to explain why the economists list the consumer as the hero of the last three decades have been so short and so tight. The latest consumer department report shows that retail sales last year hit a record high of 125.6 billion dollars, principally in durable goods and automobiles.

Should anyone exact many of the major Kennedy axioms, such as the health insurance bill, public works plan, an additional 13 weeks of unemployment insurance, and college scholarships, the 40 billion dollars in benefits would be increased by several billion.

It is intriguing to note that these payments continue to increase without regard as to which major party is in power at Washington. The total will figure in the 1962 budget. The House took office, and 35.4 billion when he left the White House. But the idea and impulse behind the program is to continue the distribution, which is by far the largest, was provided by Franklin D. Roosevelt's new deal.

ACTUALLY SAVINGS—However, these 40 billion dollars cannot be considered as handouts. They are actually accumulated savings. Whether the savings are in government bonds, life insurance, public or private pension systems, the beneficiaries contribute a large percentage of the cost. The total amount of savings in the United States is estimated to be 140 billion dollars.

Here is a breakdown of the sources of the 40 billion of benefits in billions:

Public retirement pensions	14.0
Private insurance	12.5
State security payments	9.0
State unemployment benefits	2.0
Private retirement systems	2.0

Although it is extremely difficult to break down the statistics into more bits and pieces, it is estimated that 22 of the 40 billion is attributed by the federal government. To the political cynic, it represents a sizeable campaign fund. And there are such cynics in Washington.

## VIEWS OF OTHERS

COLEBY GARD AND FREEDOM  
We were somewhat amused the other day, looking through the current issue of "Old Oregon"—the University of Oregon alumni magazine—by an article entitled: "The appalling apparel of the college coed."

The unidentified author claims that "relaxed informality" has increased too far on the campus and that the girls are becoming downright sloppy with their blue jeans, sweatshirts and the like.

The article carries the strong suggestion that the college mite should make a greater effort to appear feminine.

Blue jeans and sweatshirts on the male students, however, are not criticized—apparently such attire makes them look manly and this is acceptable.

"We may be in the minority (as usual), but we think the girls—and the guys—on campus should be allowed to dress as they please. College years are a time for expression, dress for the lack and abuse thereof is an expression of personal expression. Let us live!"

The folks at the U of O who think they have a problem with sloppy looking girls would, we suspect, be less vocal with their criticisms if they could count on 10 of O students with those at any other college.

Anybody been up to Reed lately?—Cody's Bay World.

## ONCE AN EMERGING NATION

All the nations that are now the world's "emerging" and "underdeveloped" nations recalls the early days of our own United States. America's early settlers had little money, few facilities, no highways, no railroads. Before them stretched a vast, uncharted wilderness. Other countries far excelled this new land in economic development, comforts and conveniences.

The new government formed by the colonies was weak and the people were poor, illiterate, and without the people endured poverty, illness, danger and severe hardship.

NEW YORK, Sept. 12 (AP)—"Hello people, hello school! Hello teachers, many look!"

But as millions of American kids throng back to overcrowded schools, the average teacher's many looks are more than a little weary.

Her problem seems to get more monumental every year, and at times even hopeless.

Teachers are, by any test, a dedicated class as they are in the nation. It is widely claimed they are underpaid for the work they do and the hours they spend at their duties.

But even if by some budgetary magic the pay were doubled, dedicated a class as they are in the nation, it is widely claimed they are underpaid for the work they do and the hours they spend at their duties.

But at this point of the story, the talking hunter easily started substituting the word "birds" in his narrative. When he finished, the new arrival nonchalantly asked, "Where was that and what sort of birds were they?"

Our government's excessive power, and the under-pinning of some African and Latin-American countries has cost us dearly in Cuba.

And after the ill-fated invasion of Cuba, it is common to hear the United States is a naval blockade of the communist bloc.

But nothing was said. We can only assume that the administration is not to be blamed for the invasion attempt.

But the fact remains that the New Frontier has been a failure. It would not be fair to say that the United States is a naval blockade of the communist bloc.

## Mitchell Is Sustained in Declo Ward

DECLO, Sept. 12.—Miss Mitchell was sustained as second counselor in the Declo LDS ward chapel Sunday evening at a sacrament meeting.

Blake Petersen's counsel for Francis Carter, of Burley, was sustained. Mitchell, who placed Thomas W. Matthews into the Springdale ward. Other members of the Declo bishopric are Norman Hurst and Melvin Darrington.

Mrs. Thomas Matthews was released as second counselor in the Declo Relief Society and replaced by Mrs. Carl Johnson. Speakers were the released officers, Mr. and Mrs. Matthews, Mitchell and Mrs. Hurst, newly elected officers.

Bishop Norman Hurst announced a building—communities has been selected to have charge of erecting a new seminary building. William Darrington is chairman. Joseph Ollie, Joseph Preston and Bruce Turner are members. and Ralph Johnson is the financial secretary.

Bruce Darrington and Michael Priest were graduated from Primary. Each boy made a short talk.

Melvin Darrington conducted the meeting and prayers were given by Don Jacobs and David Shuckell.

An organ and piano duet was played by Linda Johnson and Carolyn Johnson. Mrs. Winfield Hurst led the singing and Mrs. Norman Hurst was organist.

## Speakers at Wendell Meet Are Reported

HAERMAN, Sept. 12.—Speakers at the LDS sacrament service Sunday evening were Mrs. Ray Peterson and Dale Peterson. Wendell Peterson spoke on preparing to meet obligations, and told of his recent experiences while on a mission in Argentina.

Mrs. Peterson challenged "What are you going to do with your world?" to the youth, and "What have you done with your world?" to the adults.

Douglas Wood conducted the meeting, with Bishop James McCham presiding.

Mrs. William McKay was sustained as a teacher in the Primary. Mrs. James McCham and Mrs. Clyde Nieder were sustained as Relief Society visiting teachers. Dean Williams was sustained as general secretary of the Astoria priesthood.

New members received into the ward were Marilyn Pittman, Barbara Pittman, Andy and Billie Jo Pittman.

Teasdale Wood played a piano solo. Music was under the direction of Mrs. Nels Anderson.

Two missionaries, assigned to the Gooding ward, gave short talks. They are Elders James O. Lavorn, Fresno, Calif., and Stephen C. Jensen, Rigby. Prayers were given by D. H. Gold and Douglas Johnson.

A conference will be held at the home of Mrs. Nels Anderson with the welfare meeting at 6:30 p.m. Saturday, and the two Sunday sessions at 10 a.m. and 1:30 p.m.

## Major Crisis

### Looms Before Macmillan

LONDON, Sept. 12 (U-P)—A major crisis loomed today for Prime Minister Harold Macmillan's Conservative government after a concerted communist attack against Macmillan's plan to join the European common market.

Statements of at least five countries lined up to back the massive assault began Thursday by right of their fellow leaders against the prospective terms of Britain's linkup with the six-nation continental bloc.

Only the delegates from Malaya and Cyprus were believed likely to withhold outright censure of Macmillan's policy. In the face of the demonstration of overwhelming anxiety Macmillan ran the risk of imperiling his government if he presses on with his plan.

The British leader has pledged he will take Britain into the European trading and political community only after winning safeguards for the economic in-

terests of his commonwealth partners. But almost to a man the leaders of Canada, Pakistan, Ceylon, New Zealand, India, Ghana, Sierra Leone and Australia denounced as "unsatisfactory" the proposals requested so far. They also criticized other aspects of the projected arrangements.

Nigeria, Tanganyika, Jamaica, Trinidad and Tobago, and the Central African federation were expected to join in the attack today.

### Business Mirror

By SAM DAWSON  
AN Business News Analyst

NEW YORK, Sept. 12 (AP)—Aiding on the new car model this year. The nation's merchants are optimistic about business and retail sales volume in the fall. But total retail sales will not be as high as in the summer, and a lot of the new goods will be more of the "discount" type.

Total retail sales in the summer were \$10.5 billion, according to the Census Bureau. The new car model is expected to be a big factor in the fall. The new car model is expected to be a big factor in the fall. The new car model is expected to be a big factor in the fall.

### New Case of Smallpox Is Discovered

NEW YORK, Sept. 12 (AP)—A new, possible case of smallpox in New York City triggered a mass immunization of students early today at a residence hall where the suspected victim became ill, city health authorities said.

Doctors emphasized it might be only chicken pox. Exhaustive tests were under way at Bellevue Hospital, where the victim was taken, and at the health department's virus laboratory.

### Taxes

CHICAGO, Sept. 12 (AP)—The average American's share of taxes paid state governments has nearly doubled in the past decade, the Commerce Clearing House reported yesterday.

It said the per capita state tax burden in the fiscal year ending June 30 was \$112.85, compared with \$65 in fiscal 1952.

### Demo Office Sign Pulls Republican

SAN FRANCISCO, Sept. 12 (AP)—Maverick Republicans who support Democratic Gov. Edmund G. Brown in his reelection bid against Richard M. Nixon have opened an office here.

A sign outside reads in large letters, "Republican headquarters." Inside, they boast Pat Brown.

In contrast the sales of non-automobile goods rose to a high in August of 13.4 billion dollars, up 10 per cent from July.

The new car models are expected to boost auto sales as dealers display them in the next few weeks—the question is: How fast?

In the stores, all is optimism. The National Retail Merchants Association in a poll of 211 executives found a 10 per cent increase in the second half of 1962 to top the first half of 1962 by at least 10 per cent.

### Enrollment up

PRINCETON, Sept. 12—Census Bureau figures have shown an increase in attendance in both the grade school and high school.

The enrollment in the grade school for 1962 is 174 with an increase of 12 students over the 1961 enrollment of 162 according to Principal William E. Sweet.

# Berra Slams Tenth Inning Homer to Help New York Edge Detroit Tigers 8-7

Aging Yogi Berra broke up a tense slugfest with a 10th inning homer Tuesday night as the New York Yankees strengthened their hold on first place in the American league with an 8-7 victory over the Detroit Tigers. Berra's 350th homer of a career started in 1947 enabled the Yankees to open their league lead to four games over Los Angeles.

## Sports FROM ALL ANGLES

By LARRY HOVEY

A quick glance at the Idaho State college football team shows coach Babe Caccia has some pretty fair size and enthusiasm going into the 1963 football season. This year's crop of players is in good shape, the real you have to wait for until the season begins.

Viewing the practice Monday, they became apparent Idaho State does have more men out than ever before.

Caccia is trying to mold the team on fundamentals and skills, living through his changes only two game schematics. Monday's workout was spent largely in tackling practice and agility drills.

So far the coach has expressed the most pleasure over the showing of some Magic Valley players, including Shockey and Rod Holm, who, Valley, and Gary Atzawa, Jerome, drawing praise for their work in the week-end scrimmages.

Despite the size of the team, Coach Caccia is a bit apprehensive over the coming season. He believes there are men available to open at these spots but the depth is uncertain.

One of the biggest and best additions to the club this year is a big John Miller, a Spokane boy who made All-American honors at Columbia, Bismarck, Wash., last year. Miller stands about 6 feet, 4 inches and weighs in at 250 pounds.

The lineup is liberally sprinkled with weights of 200 and 250 pounds, but perhaps Coach Caccia's greatest possession comes at quarterback. He has three good looks at this spot, and all three throw the football well. For the first time when Coach Caccia says he will win, it is a possibility it means it.

Looking toward the schedule, Idaho State has special interest in the first two games. They open Sept. 22 against Colorado Mines and Coach Caccia could beat the school 10 years ago and still feel cheated. It was Mines which knocked Idaho State out of the top 10 in the nation in the 1952 season.

And then comes Idaho State's 1962 schedule. The publicity man, reports the Post-Record and Idaho State campus are lining up a special train for Monday night and this first meeting between the state's two largest schools in several years.

The freshman outlook looks good at the Post-Record school. Two big tackles have come in from the Chicago area and there is a halfback also from Illinois, who so far has been handled a "can't miss" tag for next year.

The team again is a small number with most of the prospects coming from Idaho or in the surrounding states.

Idaho State lost two boys, one sent away by Coach Caccia for getting in some difficulties and the other just dropping the sport. But a pleasant surprise helped take the sting out of that setback on the same day when a junior college transfer walked in unannounced and asked for a suit. The boy may not become a star stringer but figures to help the center picture.

Switching to another sport, John Evans, basketball coach, found the same thing most college coaches did in the Pacific Northwest this year. The number of prospects was down considerably.

Coach Evans has picked up three men who figure to help either on the varsity or the freshman club. Like the other coaches talked to, Evans has filled in with a few men who have shown potential but actually can't be called sure things.

Highlighting his list of acquisitions is Al Bonner, a Wyoming 6-foot, 1-inch center, who has played from ball at the University of Utah. Bonner will have to sit this year out but will be eligible for the 1963-64 year.

## Dysentery Hits Texas Grid Team

ATLANTIC CITY, N. J., Sept. 12 (AP)—Dysentery struck University of Texas football players Tuesday during practice and more are expected to come down with the disease.

The dysentery outbreak took several recent injuries forced coach Darrell Royal to cancel the Monday night game and hold only one practice session. None of the six was hospitalized.

Stricken were four starting players including quarterback Lucas and Sandy Sanders, guard Johnny Trendwell and wingback Willie Roy, Jr. The two wingbacks, Joe Dixon and Jim Hudson, were also stricken.

Royal said all the players were feeling fine at the beginning of practice but one by one became sick. A source close to the squad said the dysentery outbreak had been expected to spread. No explanation for the outbreak was given.

## AAU Asks Aid For Battle With Colleges

BELOHRADE, Sept. 12 (AP)—Officials of the Amateur Athletic Union of the United States were working quietly Tuesday to secure a \$100,000-a-year fund to help amateur athletes battle the lure of college sports.

The AAU has 150,000 members, including four by Tony Kubek and three each by Bobby Richardson and Mickey Mantle. The Tigers had 14 hits.

The Yankees used six pitchers with Jim Bouton getting the victory by leading the Yankees to a 10th inning win over the Detroit Tigers.

Los Angeles pitchers continued to weave their shutout spell over the Yankees, right-hander, Bill Grba and Don Lee blanking the Yankees 9-0 on four hits to pull down their second place in the American league.

Minnesota dropped to third, one-half game back of Los Angeles. The Angels picked the defeat on Jim Kaat (16-1), the American league's winningest left-handed pitcher, who pitched for four runs and eight hits before departing in the seventh.

Ortiz permitted seven base runners in the seven innings he worked, but only two of them got as far as second base.

Ortiz struck out six, walked two in running his record to 8-8.

Retired the last six Minnesota players in order to protect the victory.

Jim Perry pitched a six-hit, four-run game, beating Washington 3-2.

Los Angeles third baseman Max Alvis, playing his first big league game, drove in a run off pitcher, Claude Osteen, in the third with his first hit and Woodie Held made it 2-0 in the seventh with his 11th homer.

The Indians got their last run in the eighth on a single by Willie Tetter, a double by Tito Francona and a wild pitch.

## Terronez Takes California Title

PRESNO, Calif., Sept. 12 (AP)—Claude Terronez, 22, won the California state welterweight championship Tuesday night by knocking out Charlie Cigarrero, 25, in the fourth round.

The knockout came 45 seconds after the opening bell sounded. Terronez shot a right jab to Cigarrero's stomach and floored his opponent. The 22-year-old Fresno City College student, who now has a 12-2 record, chalked up his first knock-out.

The two boxers have a clause in their contract requiring a return bout within 90 days.

## Jofre Stops Medel, Keeps Boxing Crown

SAO PAULO, Sept. 12 (AP)—Elder Jofre of Brazil knocked out Jose Medel of Mexico in one minute, 40 seconds of the sixth round Tuesday night to successfully defend his world bantamweight championship. This was Jofre's second defense since he gained recognition as world champion last January.

On May 4, the diminutive Jofre stopped Herman Marquez on the 10th round technical knockout. This was the second time Medel has stepped into the ring with Jofre and the second time he has lost the same fate. Two years ago, the 24-year-old Jofre also knocked the Mexican out.

But Medel has a lot of company. He is the 11th straight opponent Jofre has put away. Over 40 fights and has 33 knockouts to his credit.

In the beginning of the end for Medel came in the fifth when Jofre began to open up a two-fisted attack midway in the round he went down for an eight count after a series of lefts and rights to the head just as the round ended.

But at the start of the sixth, setting victory, Jofre—who weighed 117½, went in for the kill. He caught Medel, 117, after only a few seconds and knocked him against the ropes with a vicious right.

Then he ploughed in with short lefts to the head and stomach with Medel toppled to the canvas and the referee tolled the full count.

A crowd of 15,000 was on hand in the Maracana stadium for the scheduled 15-rounder.

KNICKS TO PLAY NEW YORK, Sept. 12 (AP)—The New York Knickerbocker of the National Basketball Association and the College All-Stars will play their 11th annual game in Madison Square Garden Friday, Oct. 12. The game will be for the benefit of the Free Milk Fund for babies.

## Coast School-Has Youth On Grid Team

PULLMAN, Wash., Sept. 12 (AP)—Washington State starts the 1962 football season with lots of youth and vigor, a genuine All-American candidate and a theoretical chance to go to the Rose Bowl.

But even the most ardent fan hardly expects the Cougars to be in Pasadena next New Year's day. Most are only hoping for a winning season and more national recognition for record-breaking end Hugh (Phantom) Campbell.

A pre-season peek reveals that WSU has a young and inexperienced line, solid backfield with excellent quarterbacks and faster-than-usual runners and the nation's best collegiate pass catcher. The schedule and schedule should allow Washington State to make a respectable showing in its first season as a member of the Athletic Association of Western universities, which sends the Pacific Coast team to its Rose Bowl game.

Even before there was the added interest of AAUW membership, WSU scheduled three games of home—Stanford and Washington—in the recently opened municipal stadium at Spokane.

## Boise Cowboy Leading as Rodeo Champ

DENVER, Sept. 12 (AP)—Calvin Olsen, 27, of Boise, Idaho, leads the 1962 rodeo season in the lead in rodeo's big money title race, the National Cowboy championship.

At the end of the competition last week, the 32-year-old Olsen had pushed his winnings to \$42,000, a third place finish in calf roping at the Lewistown rodeo.

Meanwhile, the 27-year-old Olsen came out the big winner at Fort Madison, Iowa, with \$784 in roping and steer wrestling.

Olsen, already a clinch for 1962's calf roping crown—his lead is on his way to a third place finish in all-around ratings after winning more than \$4,000 in the last 20 days in three rodeos—Pueblo, Colo., Gilroy, Iowa, and Elkinsburg, Wash.

Another Idahoan, Harry Chin, 32, of Melba, is fourth in all-around competition with winnings of \$10,261. He is second in steer wrestling at \$12,849.

## Ace Pitcher's Injury Hurts San Francisco

SAN FRANCISCO, Sept. 12 (AP)—Pitcher Juan Nicasio's sore right foot remains a big and questionable factor in the San Francisco Giants' bid for the National League pennant.

"It's still sore, very sore," the 18-game winner from the Dominican Republic said yesterday after running for the first time since spraining it during last Wednesday's 3-0 victory at Los Angeles.

Manager, trainer Frank Bowman and Manager Alvin Dark aren't sure when the right-hander can return to action. But the skipper hopes it will be this weekend.

"Whenever he's ready to go we'll slip him right back into rotation," Dark said. "Whoever it will be will be more ahead one day."

That's the high value put on the 24-year-old who had an 18-10 record and a 3.21 earned run average when you out of action while fielding Willie Davis swinging bunt.

## Twin Falls Frosh Down Filer 20-0

Terry McCandless and Jon Hoyer provided the scoring Tuesday night as the Twin Falls freshmen opened their season with a 20-0 decision over Filer.

The Cubs took the opening kick and went for a touchdown with Hoyer going off tackle for the final six yards. He set up another touchdown with a 35-yard end sweep and McCandless got the last five yards on a power play up the middle. Quarterback Gary Ruusamies rolled out for the extra point.

Twin Falls capped the scoring in the fourth quarter when McCandless went over on another power play and Ruusamies passed to Soran for the extra point.

The next game for the Twin Falls freshmen will be Sept. 18 when they host Kimberly.

# Dupas Disqualified In Bout With Curvis

LONDON, Sept. 12 (AP)—Brian Curvis, British and Empire welterweight boxing champion, defeated Ralph Dupas of New Orleans Tuesday night when the American was disqualified for butting in the sixth round. Dupas weighed 148 1/2, Curvis 146 1/2. Prior to the bout, Dupas was fined \$500 for breach of the contract, which called for him to weigh 147 or less.

## Victory Over Vandals Is Goal for ISC

POCAHELLO, Sept. 12 (AP)—Coach "Doc" Curvis' 12th victory over the Vandals of Idaho State College is one of the things in mind this football season—beating the University of Idaho Vandals.

Curvis, featured speaker at the Grillon club's first meeting of the year, told a crowd of about 60 husbands and wives his team has been too busy working to think of things.

Caccia made the comment in answer to a question which asked the Bengal mentor if he had adopted a slogan like "Curvis is the key to success."

Caccia said the main concern of his staff was to have the team ready for Colorado School of Mines, which the Bengals meet in the opening game of the season Sept. 23 at Golden.

"It would be rather embarrassing for us to lose to the Mines and then beat the University of Idaho," Caccia said. "Therefore we're first thinking about the Mines."

During the discussion Caccia said his Bengals were going to throw the football this year. As usual, the comment drew laughter from the Bengal supporters, who are well-schooled in Caccia's "three yards and a cloud of dust" technique.

However, Caccia said he was dead serious about the passing because he had two or three passers this year who can throw the ball. He said his quarterback last year could not pass as well as any in the 1961-62 season.

## Udall Speaks On Pending House Bill

WASHINGTON, Sept. 12 (AP)—Secretary of the Interior Stewart L. Udall said he hopes "the house will have an opportunity to work its will" on the wilderness bill recently approved by the house interior committee.

Udall, asked at a news conference Tuesday for his opinion of the house bill, said he had made some comments "two weeks ago and stood on them."

"This is one of the really big landmark pieces of conservation legislation," the secretary continued.

"The senate passed it about a year ago. It was debated very thoroughly—two days were spent on it. I hope the house will have an opportunity to work its will on the bill."
